## AGED FARMER KILLS LAKE VILLA MAN WITH GUN

### MAN SEES FRIEND FALL FROM BOAT WHILE OUT FISHING

Heart Attack Causes Man  
to Fall Into Petite Lake,  
and Drown.

The waters of Petite Lake claimed George Hiseley, Jr., 25 years old of 5725 W. North avenue, Chicago on Sunday afternoon. Hiseley and R. O. Behnke also of Chicago were still fishing from a boat when Behnke noticed his companion sitting tense and rigid, eyes bulging out and staring straight ahead but apparently not noticing anything. Behnke started for the other end of the boat, but before he could get there Hiseley toppled over into the water and never came up.

The Antioch Fire Department was called and after about three hours of work they were able to locate the body which was brought to Strang's undertaking parlors. The coroner's jury reported a verdict of accidental death. It is thought that he had convulsions or an attack of the heart. The body was shipped to Chicago for burial.

### Jack Durand Gets Parole From State Prison on Saturday

Jack Durand, foster son of the F. Durands of Lake Forest, has been granted a parole after serving two years and ten months in the state prison for robbery of the F. Edson White home. Durand is to work while on the farm and is to be associated with his foster father in the brokerage business in Chicago.

### Yellow Cab Stand Opened in Antioch By Ira M. Simons

In keeping with the progress of Antioch, Ira Simons has secured the franchise for the operation of Yellow Cabs in Antioch.

The Yellow Cab is a product of the General Motors Co. and is probably the most popular car for this purpose. Mr. Simons will add other Yellow Cabs as the increase in business demands.

### Veterans' Day at State Fair on August 22

Wednesday, August 22, is set aside as "Veterans' Day," at the Illinois State fair at Springfield, and under a big canvas pavilion, fitting ceremonies will be conducted, according to an announcement issued by the management of the fair.

In this connection, the director of agriculture of Illinois, Stillman J. Standard, has issued the following: "The Illinois department of agriculture invites the veterans of all wars to be their distinguished guests on the occasion of Veterans' Day of the Illinois State Fair, Wednesday, August 22.

"This patriotic feature of the fair was first adopted back in 1926, by the order of Len Small, then president of the state board of agriculture and now governor of Illinois.

"This provision then included only veterans of the Civil war. In the present invitation, this fitting courtesy is extended to include the soldiers, sailors and marines of the war of the rebellion, the war with Spain, and the World War, and Illinois is proud to show its appreciation of the service and the sacrifice of these history makers of all wars."

The program for Veterans' Day will be in charge of Capt. John D. Inman, past national commander-in-chief, Grand Army of the Republic.

### Aged Man Passes Away At Home of Daughter

Mr. Alonzo Little died at the home of his daughter, Mrs. Robert Runyard, Tuesday afternoon. The services will be held at the Runyard residence Friday afternoon at 2:00 o'clock. Mr. Little was the father of Mrs. Wm. Runyard and of Mrs. Robt. Runyard.

### TOWN PROGRESS TALKS

Here's to our town. It shelters us, gives us a living, makes a home for us weeps at our sorrows and rejoices at our success. Here are our loved ones, here is where we turn our steps with rejoicing from the far corners of the earth. Our town has done much for us. May we do as much for it, making it even a better place to live, not only for us and ours, but for the generations to come. Our town has its faults, whom we love, never-the-less, because they are ours. Among ourselves we may admit these faults, but never to strangers, for we are loyal and forgiving, knowing that its faults are our faults. So here's to our town! Long may it prosper!

### RECORD CROWD SEES CLASSY AMATEURS SCRAP AT PALACE

### Jimmy Hull Takes First Feat Here; Kamin-Robles Decision Unpopular.

The largest crowd of boxing fans ever assembled in Lake county Friday night saw the defeat of Jimmy Hull, boxing idol of Lake Villa, who was outpointed by Barney Ross in the windup event of the card staged by Promoter Dick Macek and Matchmaker Henry Wallenwein. Ross, who hangs out at Mike Duude's training camp, was substituted for Dan Palmero, whom he defeated three nights previous in Chicago. After three rounds of terrific punching, Ross was declared the winner of the bout.

**Fans Roar Disapproval**

The decision of the judges in the first bout of the evening between Walter Kamin of Silver Lake and Charles Robles of Waukegan brought forth a roar of protest from the fans when the verdict was given to the Waukegan mauler. After the battles had slugged for three rounds the judges decided it a draw and after the fourth session Robles was declared the winner. Had it not been for the A. A. U. rules that call for a decision at the finish of four rounds, the bout could have been called a draw. A return match between these boys is on the card for Friday night.

Jack Moore of Belle Plaine, A. C. earned a decision over Paul Selter of Libertyville.

Frankie Hughes was on the losing end of his bout with Jimmie Swift of Chicago. Swift, a clever boxer, hit Frankie with everything he had, but he could not put over the sleep-producer on the "hard rock" from Wisconsin.

The return match between Alex Kazlo and Howard Kraft was another interesting and clever bout, the verdict going to Kazlo after three rounds.

The real slugging contest of the evening was staged by Red Cherko and George Emoro, the latter a veteran at the manly art of self-defense, who was given the decision after three rounds of fighting.

**Colored Boy Wins**

In the semi-windup, Phil Taylor, colored batter from Waukegan, beat Jerry Miller of Kenosha in four rounds. Taylor complained of Miller butting with his head and showed a flash of temper during the latter rounds of the fight. Mixed bouts are to be banned in the future, according to Promoter Macek.

R. J. Currie of Chicago was the A. A. U. Inspector in charge of the show while Edward Cliffe of Waukegan and Henry Sayra were the judges. (Continued on page twelve)

### Methodist Church Completes New Improvements

A new cement walk has been completed at the Methodist church by Hans Johnson. It was necessary to take out the old walk and fill in to the level of the pavement, in order not to have the walk submerged under water at time of heavy rain.

The kitchen has just been made modern by the addition of a new gas stove, steam table, icebox and hot plates. The kitchen is now equipped to handle the large crowds that attend the dinners served.

### TUNNEY IS FAVORITE TO RETAIN TITLE IN CHAMPIONSHIP BOUT

### Fifteen-Round Show Will Be Financial Flop, Is Report.

Radio fans will tune in tonight on the world's heavyweight boxing bout between Champion Gene Tunney and one Thomas Heeney, muscle-bound New Zealand plumber, who covets Gene's crown. Very little betting at odds of 3 to 1 on the champion is reported, and it is said the gate will run considerably less than \$750,000, of which the champ is to receive a guarantee of \$525,000 and the challenger \$100,000, leaving a net profit of something less than nothing for Promoter Tex Rickard.

A knockout is extremely unlikely, according to the dope, for Gene can dance through the fifteen rounds, keeping out of harm's way after he finds out he can't hurt the "hard rock" from New Zealand. In that case, the champion being the more clever boxer will retain his title.

The scene of the conflict, that has failed to stir up much enthusiasm, is the Yankee stadium, New York, (time 9 o'clock eastern daylight saving time. Early reports of the fight on the air here at 7 o'clock.

### TRUCK DRIVER IS BEATEN, ROBBED

### Bandits Take \$300 From Chas. Kloth Near Round Lake Saturday.

Beaten into insensibility and left for dead on a lonely country road near Round Lake, Charles J. Kloth, truck driver for the Harris Pie Co., of Chicago, was robbed of about \$300 in currency and nearly an equal amount in checks late Saturday night.

Earlier in the evening Kloth had reduced the amount of cash he was carrying by buying a draft at the First National Bank of Antioch, and proceeded to make his final rounds of the region when his truck was stopped near the end of the new pavement leading to Round Lake. Jumping on the truck two armed men beat Kloth and robbed him, escaping in the car they had used to block the road. Kloth did not regain consciousness until three o'clock Sunday morning. However, none of the wounds inflicted on him were serious, and he is back again on the pile wagon this week.

It is reported that an A. & P. truck and also another truck were stopped in the vicinity of Round Lake Saturday night, but the fact that two drivers were on each truck prevented the robbers from doing their stuff.

### High School Orchestra Continues Development During Summer

The High School Orchestra is practicing regularly each Monday night, under the direction of Mr. Stark. There are over 20 pieces in the orchestra. Those who would like to play orchestral instruments may make arrangements with either Mr. Stark or Mr. Bright.

### OUR COUNTRY CLUB HOST TO 500 ON THE OPENING DATE

Lounging Rooms, Veranda,  
Dining Room, Pools,  
Popular.

Another golf course and Country club was opened in this vicinity last Saturday when "Our Country Club" located at Liberty Corners entertained approximately 500 people at their opening last Saturday. There were times when 100 persons were on the course at the same time.

Not only did they play golf, but a great many took advantage of the nice comfortably furnished lounging rooms and veranda to rest and enjoy the company of friends. The swimming pools were also popular places because of the warm weather and fine facilities.

The dining room was busy both Saturday and Sunday. Many compliments were paid Mrs. Jennings for her type of service.

The golf course is being improved each day by the large squad of workmen.

The natural lay of the land together with the artificial hazards will make this course one of the most popular and sporty in this region, as soon as the greens and fairways are brought to meet the demands of the professional, Mr. Pollock.

### They Grow Big Blue Gills in Channel Lake

### Bass Lake, Wisconsin, Pro- duces Large Bass For Local Boy.

George Dunford, Jr., of Channel Lake, had the good fortune to land one of the largest blue gills that has ever been caught. It measured eleven inches in length and five inches in width, and weighed 1 1/2 pounds. If you want to know where the most is ask George.

The weekly bulletin of The Milwaukee Road contains the following article: "Mr. Laurel Van Patten of Antioch, Ill., who is fourteen years old, is a true fisherman and has proved it by bringing in a Black Bass 17 inches long in a Black Bass 17 inches long weighing 3 lbs. 8 oz. That sure is a record to be proud of Laurel".

Laurel and Marvin Van Patten were in Woodruff, Wis., the early part of July with Wm. Daugherty of Oak Park. The catch was made in Bass Lake.

Edwin Tomas of Chicago caught a 14-lb. pickerel in Camp Lake last week. His brother, William landed the first Wall-eyed pike caught this season.

### Hickory Ladies Clear \$215.00 at Dinner And Bazaar

The ladies of the Hickory neighborhood gave one of their unusually good annual dinners last Saturday night at the church for the benefit of the Hickory Cemetery society. The neat sum of \$215 was realized from the dinner and bazaar. The Hickory dinners are so popular that one must be there by five o'clock in order to be served by seven.

### Secretary of Navy Spends a Few Hours At Great Lakes

Curtis D. Wilber, Secretary of the Navy, visited at the Great Lakes Naval Training Station, Sunday, on his way to the west coast. The Secretary made an official inspection about a month ago so no formalities were staged in his honor Sunday.

### St. Bede Ladies Hold Carnival

The ladies of St. Bede's Catholic church are having a carnival at the intersection of Fox Lake and Long Lake roads, Thursday, Friday and Saturday of this week.

**Traces Three Countries**

The troupe is the name of a defile on the River Danube at the border of Hungary, Serbia and Rumania

### Legion To Have 2nd Festival at the Palace

The Antioch Post of the American Legion will give its second annual Festival at the Antioch Palace, Aug. 22-26.

The feature which will replace the bathing beauty contest of last year will be the "popularity" contest. The young couple which receives the greatest applause will be declared the winner each evening. The winners at any session will be ineligible for succeeding contests except for the finals at which a grand prize of \$50 will be given. Cash prizes will be given each night. The boys maintain that they have a bunch of new stunts and new attractions.

### ANTIOCH LOSES GAME TO BEST TEAM IN CONFERENCE SUNDAY

### Mills Was Too Good For Local Hitters Giving Just Two Hits.

Antioch traveled to Sheridan Park last Sunday and was handed a 7-1 defeat by the crack Johns-Manville team. The game was fast and was much closer than the score indicates as the home boys played them practically even except for one bad inning and clean hits combined with several errors gave the Fireaters 5 runs and the ball game.

George Mills was on the mound for the Manville tribe and was in wonderful form, allowing only 3 hits and striking out 11. He is said by many fans to be the best pitcher in the league and the Antioch boys will agree with them. He exhibited a sharp hook, a beautiful change of pace and very good control, and has allowed only 3 runs in his last 5 games, and almost single-handed has carried his team into second place.

Fredrickson and Morley pitched good ball for Antioch but were handicapped by loose support in the pinch.

Sullivan led the losers at bat with a double, which drove in their run and a single. Hoyer got their other hit. Dickshot and Vic Mills were best hitters for the winners.

Antioch will play the strong Gurnee team at the Antioch Park next Sunday, July 29. They have met twice this season, one game being called after 8 innings on account of rain, with score tied 3-3, and the other ending in a 3-1 victory for the local players. The teams are evenly matched and a good game is assured the fans. The boys have lost money financially so far this season and are looking forward to a large crowd for the few remaining home games.

### DEPNER TAKES OVER SOMERVILLE BAKERY FROM R. WORSLEY

### Worsley Loses Restaurant In Bankruptcy; Business Goes to Kenosha Man.

The Somerville restaurant and bakery has again changed hands. Mike Depner has taken over the business recently relinquished by Robert Worsley. Mr. Worsley has accepted bankruptcy proceedings, the property reverting again to Somerville on the mortgage, who in turn sold to Depner.

Mr. Depner is an experienced hotel and restaurant man, having been in this business several years in Kenosha. He is an active man and understands the ins and outs of the business, and an unusual success is predicted for him.

### Local Dentist Spends Vacation With His Regiment in Wis.

Dr. Jahnke left Sunday for Camp McCoy, Sparta, Wis., in which he will be camped with his regiment for two weeks. He will return Aug. 6.

### IRVING SCHNIDER 'KILLED INSTANTLY BY AL KOPAL WED.

### Moonshine Starts Quarrel That Leads to Fatal Attack.

### KOPAL NOW IN JAIL

During a drunken spree and at a violent altercation, Irving Schneider of Lake Villa, was shot to death yesterday at 3:30 o'clock by Al Kopal, 73 year old hunchback farmer and alleged bootlegger of Ludguside. Schneider was shot once through the heart and once through the eye, laying open cavities large enough to hold an apple. The shooting was done on the Kopal farm.

### Shot While Cranking Car

Kopal used a double barrel 12-gauge shot gun. It is claimed that Kopal shot at the ground just beneath the feet of "Old Dan" (the third member of the party and then went back into the house and re-loaded the gun. During this time Schneider had gone to his car when Kopal again appeared with the loaded gun and staggered out toward the car fired both barrels, one taking effect in the heart and the other boring out the eye. They were all so "stewed" that they didn't know what they were doing themselves, or what the other fellow was doing. This probably accounts for the fact that Schneider was unable to get out of range.

### Find Kopal Under Tree

Neighbors turned in the call for officers and within four minutes after the call, there were six of them on the scene. They were called from all parts of the county and were instructed to prevent the escape of Kopal as they closed in from all directions. He was not at the house when the constables and motor cops arrived so it was assumed that he had tried to escape. He had shambled off up the hill about 500 feet to a nice shady tree in the corner of his farm, where he was found contentedly munching at an apple. He was just barely conscious of having done anything out of the ordinary. In fact neither he nor "Old Dan" were able to give any account of what had happened or how the trouble started. Both were taken to the county jail at Waukegan where they are held as defendant and chief witness respectively.

### The body was taken to the Strang Undertaking parlors at Grayslake where the inquest will be held.

### Drank Heavily

Kopal, who had never been married, had lived on this farm which he owned for about three years. Neighbors claim that he was a heavy drinker, rarely being out from under the influence of booze, in fact they doubt whether he can last long if it is denied him.

He wasn't entirely unconscious of the deed, however, because when Officer Valenta arrived he said, "Frank, you're the only friend I've got in the world. What will I use for an alibi?"

Irving Schneider, who was about 30 years old, was a well digger, assisting his father in this business. It is claimed that young Schneider was a good hard worker and tended to business when sober, but was unable to stand up against moonshine. He had had several court experiences while in this condition.

### Joys of Florida Bathing Brought To The Fox River

An alligator as a swimming partner is not popular even in the Fox river. The people along the river just north of Carey have been using bath tubs rather than the river for bathing purposes since a five-foot alligator escaped from the Wing-Newbold aquarium of Hickory Grove. Unless the animal is captured soon, the river will become an unpopular place as far north as the Dam.

Several cottagers have reported seeing the alligator as he plays in the water.

## FASHION HINTS

Sleeveless and collarless, the hot weather frock is comfortable and cool, as well as attractive. With an accompanying coat of black print linen or pique the ensemble is complete.

Crispy cottons, blackpoint linens, piques, tub silks and crepes are used for these simple dresses for midsummer. They are self-trimmed with headings, pleats, fagoting and machine stitching. They match or harmonize with the accompanying coat. A contrasting coat is desired, it is the color of the dress in the head trim down the front.

Collars and cuffs of fine linen or washable silk are more important than they have been for several seasons and are added to many types of summer costumes. The collars are usually round and finished with a narrow ribbon tie. Cuffs are more varied and come in both narrow and wide flaring styles. Some are hemstitched. The collars are white, flesh, olive green and orchid.

Geometry and jewelry are coming closer and closer together under the Parisian influence of designers like Fouquet and Sandoz.

Fouquet recently put out a brooch, designed especially for a hat ornament, combining black enamel, platinum, gold, amethysts and brilliants. Its design, one of the most most complicated Fouquet has yet put forth, is a study in angles, curves, planes and solids. The jewels are arranged like a partially seen wheel at the back of two upright bars of platinum and gold. The angles are grouped about the bars and carried out in black enamel. Another new Fouquet creation is a brilliant deep blue enamel bar with an onyx centre flanked by graduating narrow lines of gold.

Some of the newest pearl two-strand necklaces have insets of white sapphires or carved crystal beads just across the front of the top strand, which is meant to fit the base of the throat closely. The second strand is of graduated pearls. The effect is very good for women whose throats need slenderizing.

## Your Summer Porch

The modern housewife realizes that summer enables her to add to her house by means of the front porch not only one room but several.

The new porch furnishings are so designed that an outdoor bedroom may be easily managed without heaving its existence in the day time, a comfortable living room is of course possible, and that also becomes an out of door dining room and, joy of joys to the home maker who has the instinct for hospitality developed but who hates a hot kitchen, a charming and useful kitchenette may be arranged so she can cook a well planned meal and never miss a moment of her guests' society.

You can buy hammocks that become comfortable double beds and enable you to have at least two guests that will halt your weekend invitation with glee if they know that they can drift off into sleep looking out at the stars and the soft moonlight.

A number of small tables, the so-called nest, may be used as smoking stands or individual serving tables or even writing tables. The tea wagon is another useful piece, and you can find these in both wood or wicker.

A grass matting may be used on the floor or if you prefer, several small Indian rugs may be used.

If your porch is glassed in, cretonne curtains and cushions to match are very attractive. Green is a very desirable color and may be had in several shades.

We must not forget the hanging baskets and flower boxes.

## Give State Nickname

The regiment furnished by Delaware in the Revolutionary war was, on account of its fighting qualities, known as the "Game Cock Regiment." One of its officers—Captain Caldwell—who was noted as a fancier of game cocks, maintained that a true game cock must of necessity be the progeny of a blue hen. Hence arose the application of this name to the state.

## Valuable Oil

Citronella is the name of a fragrant oil imported from Ceylon, the Malay peninsula and Java. A group of closely allied grasses produce this oil. The name of the grass is Andropogon nardus. The most important ingredients in this oil are geraniol and citronellol, which together make up as much as 93 per cent of the oil.

## Vicious Habit of Hating

A man should not allow himself to hate even his enemies; because, if you indulge this passion on some occasions, it will risk of itself in others; if you hate your enemies, you contract a vicious habit of mind and by degrees will break out upon those who are your friends, or those who are indifferent to you.—Plutarch

COLOR LENDS ENCHANTMENT  
TO THE MIDSUMMER LACE FROCK

IT IS a fascinating chapter which has to do with lace of cobwebby texture and in delicate colorings, which summer is writing in the book of fashion for 1928. Lace, always alluring and lovely is infinitely more so when it takes on, as it does this season, the tint of the rose or the tone of wood violets, or reflects a radiant peach shade, or a dainty powdery blue, or perhaps a cool-looking green, or is tinged with a mellow yellow glow. Yes, there is no doubt about the dyed all-over laces now in vogue being among the loveliest media the mode has to offer for fine, dance and afternoon frocks.

Still another thing which glorifies these flattering lace confections with super-charm is the manner of their styling. The very beauty of these cobweblike colorful textures is a challenge to stylists to bring into play their finest and most ingenious creative ideas. There is, per example, the lovely dinner gown in this picture—an original Chanel model of lavender lace. With what beguiling simplicity it is fashioned. The sleeveless drape over one arm only, is individual in its treatment. Of course the headline is artistically uneven, as it must be to comply with the dictates of the formal evening mode.

The newest couturiers are doing some fetching things with lace these days, omitting no intriguing detail such as mark the season's styling. They employ flounces, tiers, capes, deep berthes, fluttering scarfs, fitted hip-lines which slope to the back, most of them accenting either scallops or points, and so the list might be continued, for the subtleties of the modernists' dressmaking art are more than words can convey.

Pale beige is a favorite shade for the lace dress of cobweb texture. Another is another color which is very smart. In fact the brownish tones for sheer evening frocks are very much in the limelight of fashion.

On the theory that "one cannot have too much of a good thing," fashionists are complementing garden party and dinner frocks with wraps of matching lace. Some take the form of graceful capes, others of handsome three-quarter length coats.

## Berry Cocktail

2 oranges  
1 cup small strawberries  
3 tablespoons lemon juice  
6 tablespoons powdered sugar  
Peel and remove membrane from oranges. Cut segments in halves. Hull strawberries and cut in halves. Mix with orange pulp and add lemon juice and sugar.

## Lemon Sherbet

Boil two cups sugar and four cups water ten minutes. Cool. Add one-fourth cup lemon juice and strain. Freeze, and when nearly stiff, add one beaten egg white and finish freezing.

## Chicken Surprise Salad

Combine two cups diced chicken and one-half cup celery with sufficient mayonnaise, then stir in one cup halved and seeded Malaga grapes (substitute cherries when grapes are not in season) together with enough mayonnaise to blend, serve with whipped cream mayonnaise, whole nut meats and halves of the grapes arranged to make a design.

## Peanut Butter and Cream Cheese Salad Sandwiches

Cream the cheese and one-half cup peanut butter together and spread on slices of wheat bread. Sprinkle chopped stuffed olives over half of the slices, lay lettuce leaves over these, spread lightly with mayonnaise and top the further slices of the bread, which have been spread with the cream cheese and peanut butter.

## Nut Bread for Sandwiches

Mix two cups graham flour, one cup white flour, three teaspoons salt, one-half cup nut meats cut fine and two-thirds cups of sugar. Break one egg into one and one-half cup milk and add to dry ingredients. Mix thoroughly, pour into a well buttered bread pan and allow to rise for twenty minutes. Bake in a moderate oven for fifty minutes.

## Origin of Street's Name

It is supposed that the three needles on the escutcheon of the Needle Makers' company, suggested the name Threadneedle street, in London.

# BANKER-FARMER MOVEMENT GROWS

## Funds Supplied by Banking Organizations in Many States to Finance Studies and Contests.

The nationwide movement being conducted by county and state bankers' associations and the American Bankers Association in cooperation with the state agricultural colleges and county agents for the purpose of bringing about both local and national solutions for farm economic problems has shown notable results during the past year. A review of these activities in the Bulletin of the Agricultural Commission, American Bankers Association, summarizes some of the chief points as follows:

In Missouri a meeting was held at the College of Agriculture at which the bankers again appropriated \$1,600 for boys' and girls' club work. Saline county bankers have raised \$500 to stimulate beef calf clubs and report definite results obtained in getting farmers to lime their soil and grow alfalfa. County "key bankers" to promote banker support of farm betterment projects are being appointed and another Short Course in Agriculture for bankers is being planned.

In Kansas no less than fifteen counties are reported by the Extension Service as engaged in definite banker-farmer work. County key bankers attended four district conferences during the year.

The Louisiana bankers' agricultural committee met at the College of Agriculture in connection with a bankers' farm course. The bankers are thoroughly aroused to the wisdom of tick eradication and are co-operating to that end. County key bankers are being selected and county meetings with bankers throughout the state will be arranged.

### Results Shown

In Kentucky key bankers have been appointed in each county with the result that the bankers of the state are co-operating with the College of Agriculture more specifically than any other group of business men. Some of the fruits of this co-operation is demonstrated by the fact that the number of dairy cattle in the state has increased seven per cent and the production per cow twelve per cent. Three counties in the state have eliminated all scrub bulls.

In North Carolina the outstanding accomplishments have been the honoring of "Class A Farmers," that is, those attaining a degree of proficiency in a well balanced and sound system of farming as indicated by a score card prepared by the College of Agriculture and the Bankers' Short Course given there. Future plans provide for the continuation of the county key banker system and the arrangement of county banker-farmer tours.

In Virginia \$15,000 has been raised by subscription for boys' and girls' club work, largely from bankers. A group meeting was held at the College of Agriculture with two hundred bankers in attendance. The Committee on Agriculture of the State Bankers Association voted to continue and check up on the county key banker work.

The reports from New York on the activities for the past year included the distribution of 20,000 short form farm credit statements prepared co-operatively by the agricultural college and bankers. The bankers' agricultural committee also arranged to send suggestions to the banks of the state to aid in financing purchase of dairy cattle to replace those lost by the tuberculosis test.

### Bankers' Farm Schools

Bankers' Farm Schools or "Short Courses" continued popular during the year. Several colleges held such courses under the auspices of the state bankers' agricultural committees and are repeating them this year.

"Minimum of Talk—Maximum of Demonstration" was the character of program put on by the Kansas Agricultural College for the second Bankers' Farm School in April. Four representatives were invited from each of twenty counties, consisting of the county key banker, the county agent, and the secretary of the county bankers' association, and the president of the farm bureau. Proper farm methods were brought out by demonstrations, then tours were made to farms whose owners had followed the practices and methods outlined by the college to illustrate the lessons. Emphasis was placed on the important part bankers can play in developing agriculture.

In South Dakota specific plans for the ensuing year are the appointment of county key bankers, co-operation in boys' and girls' club projects and group meetings of county agents and key bankers. In Minnesota the county key bankers system is to be continued with special emphasis on bringing the county agent and key banker into closer co-operation.

At a banker meeting at the North Dakota Agricultural College it was decided that the key banker organization would be completed and in order to acquaint the bankers with agricultural needs county bankers' meetings were planned during the year.

At a conference held at Montana State College it was reported that county key bankers had co-operated in arranging for a livestock special train which ran for seventeen days, made twenty-nine stops and came in contact with 22,000 people; that bankers had assisted in six district conferences that led to the formation of a state agricultural program, and that twenty-eight counties reported definite work under the leadership of the county key bankers such as assisting in the purchase of purebred livestock and loans to club members.

### Other States in Line

Idaho College of Agriculture was the scene of a special meeting attended by thirty-five bankers and college representatives. The conference voted to join the key banker ranks.

In Oregon the first banker-farmer short course was held in January with a good attendance and marked enthusiasm. A meeting of the state bankers' Agricultural Committee held in conjunction with the course voted approval of the banker-farmer contest sponsored by Agricultural Commission, American Bankers Association, and appointed a committee to confer with college authorities on methods to prevent spread of contagion in dairy cattle.

California held twenty-two successful county tours during the year and as a result it is planned to extend the tour to every county in the state and also to arrange a state-wide tour. The county key bankers played a big part in pushing this work. At an Arizona College of Agriculture meeting of bankers county key bankers were appointed and plans made for community conferences of bankers, farmers and others where local agricultural needs will be discussed.

In New Mexico bankers and county agents met at Clovis as a step in the plan to acquaint bankers in different sections of the state with agricultural conditions and to bring about greater co-operation between them and the county agents. At the Colorado College of Agriculture plans were formulated to select county key bankers and county agents and for chairman of the state bankers' committee to attend and address group meetings.

In Nebraska four "farm outlook" meetings were held, largely attended by bankers. Sixty-nine county key bankers were appointed during the year and follow-up work between them and county agents is to be pushed.

For Iowa effective co-operation is reported between bankers and the Extension Service of the state college in their farm bureau programs. Every third farmer in the state is a member of the bureau. The key banker system is to be continued and special emphasis is to be placed on team work between county agents and key bankers.

Director D. H. Otis of the Agricultural Commission American Bankers Association attended many of the meetings.

about money affairs, but now they are realizing this danger more and more and are taking advantage of the financial advice departments their bankers have set up for them. One thing that has led to women's financial undoing is their natural love of pretty things. This trait often leads them into foolish investments and speculations to get money quickly. Once a woman sets her heart on a thing she can't wait until it is here. "But if women didn't buy things, there wouldn't be any business," spoke up Molly. "Women are the natural spenders of the family, Dad says."

"Yes, but they would have more to spend if they'd go a little slower," replied Aunt Emmy. "Every time I see a woman falling for some silly get-rich-quick scheme I think of the nice things she could buy with the money she is going to lose. If they'd go slower—they'd get farther."

"From what I know of the Slade girls," Molly began—but just then the Slade girls themselves came in. "We're so sorry to be late," they apologized, "but we have been having our first lesson in finance down at the Trust Company. They are going to give us quite a lot of time and explain all the things we ought to know about money to keep us out of financial trouble."

"Well, my dears, you are going to the right school," said Aunt Emmy. "If every woman would do that there'd be less trouble and more pretty things for all of them."

### Impression of Fear

The origin of fear is often traceable to some incident in early life. Thus, a boy was full of courage and fond of fighting up to the age of ten when his mother saw him as he was returning home after a combat. Horrified at his appearance she fainted. He feared to fight again and belied his name, as other boys called him a coward. —Exchange

Caruso was a common sort of man born with a glorious voice, which made him famous and rich. In the days of his prosperity he had 21 relatives living at his house and they nearly drove him crazy. ## STRAIGHT TALKS WITH AUNT EMMY

On When Women Come Into Money.

An Aunt Emmy sipped her tea she heard the conversation drift to the Slade sisters. The fact that they had inherited a large fortune and would have to administer it themselves created considerable comment.

"My husband says old man Slade made a big mistake not putting it in trust for them," said Mrs. Burt. "He says women never should handle large sums of money because they are 'financially uneducated'—he really means 'dumb.'"

"All women aren't dumb about money matters, are they, Aunt Emmy?" exclaimed Miss Pringle.

"Of course not," Aunt Emmy agreed. "There are all sorts and kinds of women all the way from very prudent to very foolish."

"Well, anyway, an awful lot of women have been victimized in financial things—just look at all the widows that have been robbed," insisted Mrs. Burt.

"There won't be so much of that in the future as in the past," Aunt Emmy said. "Women have been easy to victimize because they knew so lit-

tle about money affairs, but now they are realizing this danger more and more and are taking advantage of the financial advice departments their bankers have set up for them. One thing that has led to women's financial undoing is their natural love of pretty things. This trait often leads them into foolish investments and speculations to get money quickly. Once a woman sets her heart on a thing she can't wait until it is here. "But if women didn't buy things, there wouldn't be any business," spoke up Molly. "From what I know of the Slade girls," Molly began—but just then the Slade girls themselves came in. ## SHAVE HEADS OF BAD BOYS AS PUNISHMENT

### Argentina's Method Proves to Be Effective.

New York.—Down in the Argentine republic if a boy is bad and you whip him he forgets the whipping but remembers the business. But if you cut off his hair, shave it right down to the scalp, it hurts, and he forgets the business and remembers the hair cut then.

With which interesting homily on South American discipline, Jose Amato, of Buenos Aires, who is in America now to study reformatory methods, discussed recently the "reform camp" he has built out of a real penitentiary in three years.

Officially, Jose is a Y. M. C. A. secretary on leave loaned to the Argentine government. Actually, however, he is a sort of big brother to 350 "bad boys" of his country. He has taken the juvenile malfactors of the Argentine out of chain gangs into homes.

#### Started Work Three Years Ago.

"Three years ago," said Senor Amato, "the minister of education asked me what I could do with the boys who have received sentences for crimes from the courts. Then they were all housed in one building and they were treated like prisoners. They were always handcuffed or big chains were placed on their ankles. So I didn't know what I could do. But I told him I'd try something.

"I demanded three things. First, that there be no politics if I tried to help the boys. You know there is nothing but politics in everything in my country. Then I insisted on running my own budget and last that I should not take any men or women workers who came to me recommended by officials. I knew that type in my country."

It's a long story this bright, black-eyed young Argentinian had to tell. In three years, for instance, his institution has produced \$200,000 worth of various goods in his 17 shops and 18 farms. It has spent the money for more and better equipment. It has produced, too, one boy who is certainly going to represent his country in the coming Olympic games and another who has a pretty good chance to do it.

#### Knows His Boys.

It has produced carpenters and masons who built 35 houses for themselves. It has brought out a furniture maker who sold a chair and desk to the President of the republic—"at a good price, too"—for his use in the official headquarters of the Argentine. Lots of other things have been done.

The thing that was most impressive about the youngster who in three years changed the system of handling boy criminals is that he knows so much about boys.

"I read the football stories in the paper every day. I've learned the boys are football crazy. So I know the names of all the stars, and I argue with the boys. That makes friends."

"I don't preach a sermon. I get out and play with 'em. I put them on the back and shake hands."

"I haven't whipped a boy since I took the place. It isn't necessary. You can joke with a boy and get him to do more than you can when you force him."

"When a boy is a little bad I deny him the swimming pool. When he is very bad I cut his hair. They love their hair and that's what hurts them most."

"Let them plan things themselves. They figure out their own menus, for instance. They do whatever kind of work they want to do."

"Take them places. I try to give them little outings whenever I can."

Jose got his training in the Y. M. C. A. schools here. He's back now officially representing the government to study reform schools.

### Influence of Health on Progress Studied

Washington.—The history of health, and how health conditions influenced the progress of Americans for the last 300 years, is being studied for the first time this summer. The American Historical association has commissioned Dr. Richard H. Shryock, research scholar appointed under the \$50,000 memorial fund established in honor of former United States Senator Albert J. Beveridge by his widow, to do this job.

Historians often mention spectacular epidemics or strange medical practices, and medical men record the technical progress of their science, but none heretofore has made an attempt to relate the status of the nation's health with its social background.

Doctor Shryock will work this summer among scholars of Washington and Philadelphia.

### Lapis Lazuli Monopoly

#### Given to German Firm

Idar, Germany.—As first evidence of the much heralded trade development with Afghanistan expected to result from King Amanullah's recent visit, a local firm announces that it has been granted by the Afghan monarch the monopoly for importing Afghan lapis lazuli.

It is claimed that nowhere in the world is lapis lazuli found of such good quality as in Afghanistan. Idar is a small town on the River Nahe, a tributary of the Rhine, and has a special industry connected with the setting and mounting of semi-precious stones.

### Flyer Kills Eagle

#### Two Miles in Sky

Banning, Calif.—Friends of Elmer, Warren Maxwell, of March field told here of his thrilling battle with a lone eagle almost two miles up in the air above San Jacinto. Maxwell managed to bring his ship down with the bird entangled in his propeller and motor, although it was an emergency landing.

According to the story told by his friends, he was piloting a P. T. 3 training ship over Mount San Jacinto and the San Geronimo pass region in search of emergency landing fields.

At an altitude of 11,500 feet he said, he suddenly noticed an eagle flying directly into his course of flight. He tipped the plane at the greatest angle possible. The eagle was down in by the tremendous suction of the propeller and lodged on the motor of the plane while the pilot maneuvered it into a long glide to earth.

### "I'M A SAP," SAYS NABBED ELOPER

#### Romance of Church Singers Comes to Grief.

Philadelphia.—"Watson said I was a sap. I am a sap."

Thus ended the romance of Mrs. Elythe Whitney Watson and Reginald W. Erskine, who sang together in the church of the Ascension choir at Rockville Centre, L. I., and eloped. They were found here by police and are to be arraigned, Erskine for violation of the Mann act, and Mrs. Watson as a material witness.

It was Erskine who admitted being the "sap." According to newspaper accounts of the elopement, Mrs. Watson's husband, Stanley, spied them on their way by inviting the "poor sap" to come inside and wait for his luncheon and by telling Erskine that "what his woman is doing to me now, after 15 years of married life, she'll do to you, but it won't take 15 years."

Mrs. Watson left behind three children. Her husband since has sued for divorce. Erskine, a bond salesman, deserted a wife who said he had left her penniless.

According to the police, Mrs. Watson, who was found behind a candy counter in a 5 and 10-cent store, took her arrest with head held high. She insisted she came alone and paid her own fare to this city, which would be sufficient to clear Erskine of the Mann act charge. She told how much they loved each other, intimated that excused everything, and said she thought matters would straighten themselves out.

### Top Is Stolen From Cop's Car Near Station

Washington.—Auto thieves are growing bolder every day. In the opinion of Motorcycle Patrolman E. D. Gemeny, who parked his car almost in front of station No. 2 the other night and returned after his late trick of duty to find that some dauntless persons had carefully and completely removed the top and made away with it.

Policeman Gemeny drove to the station to report for duty from his home in Virginia, parking his car at midnight just fifty feet from the station. The next morning he was driving home hoping that it would not rain before he got there.

Brother officers said that Gemeny had bought the car not very long ago second hand and that it was not a very expensive machine. The policeman regarded the affair as a joke, they said, but next morning he was out looking for another top.

### Hungry Gulls Feast on Herring Loaded Scows

Port Angeles, Wash.—A great flock of seagulls attacked a tow of three scows of fresh herring with such vim and vigor that the loads of fish were lowered three inches per day before port was reached.

The tug Olympic was towing the loaded scows from the Gulf of Georgia to reduction plants of Vancouver Island. Every man was needed to attend the tug because of rough weather and the discharge of firearms at the marauding gulls did little good.

Seven herring make a meal for a gull, but their rapid digestive machinery calls for a dinner every two hours. They seemed to eat until they could not fly and then added insult to injury by roosting and riding on the scows until they became hungry again.

### Mother Nearly Drowns as Child Is Born in Stream

Budapest, Hungary.—When its mother fell into the stream by accident, a baby was born in the Danube river, near here. The woman was picking up firewood along the banks and plunged headlong into the waters.

Fishermen rushed to her rescue, and when they reached her she was more dead than alive but held the new-born baby in her arms. The child lived only a few minutes, and the mother was taken to a hospital in a critical condition.

### QUITS SOLITUDE AFTER 30 YEARS

#### Western Hermit Back to Society of Fellow Men.

Fort Morgan, Colo.—After living for 30 years in the mountains of western Colorado as a primitive cave man, shunning human society, finding for his food, and wearing the skins of animals for clothes, Golden Dove, sixty-two years old, has at last been forced to seek the society of his fellow men and has decided to spend the rest of his life in that human society that formerly he avoided.

When Dove was a young man, during the early '90s, an agent for a railroad that was building in the Centennial state contracted with him to furnish a large number of railroad ties. For these he offered Dove a good price. The young man labored hard during the winter, and when the agent came around he had a considerable supply of ties on hand. But the railroad man rejected about one-fourth of the ties, saying that the company would not take such poor stuff. Dove thought this a grave injustice and he declared on the spot that he would never do another day's work for any man. This vow he has kept for nearly a third of a century.

Before leaving the pile of ties he made a bonfire of it, and with some of his belongings went back into the Rockies, where he dwelt in a cave for more than 30 years.

When he had been missed for several months a forest ranger went to his cave and found him ill with a raging fever. He was taken to a hospital and later to the home of a relative, where he will spend the remainder of his days. He was known as the "hermit of Hubbard Park."

### Moslem Maidens Win Right to Inheritance

Aleppo, Syria.—Mohammedan maidens henceforth will have a right to share the inheritance of their fathers with the sons of the family.

The court at Aleppo recently ruled that the French law concerning open successions should apply in the part of Syria under French mandate.

Heretofore the Koranic law provided that everything should go to the sons of the family, leaving the girls to look out for themselves—or for husbands—has applied. During the court trial the rights of women to have a slice of the family financial pie in Syria were upheld by Henry Lemery, senator from Martinique in the French parliament. It was estimated that \$3,000,000 were represented by the claims of women that would be affected immediately by the court decision.

The men of Syria have not taken kindly to the decision. In order to put their women folk back in their old places they have appealed from the Aleppo decision before the Supreme court at Beyrouth.

### Bicycle Is Main Vehicle for Holland's Population

Leyden, Holland.—Bicycles are more frequent in Holland than automobiles in the United States. There is a "rijwiel," or bike, to every 2½ inhabitants. In a university town like Leyden virtually every student, male or female, owns a wheel.

The great popularity of the bicycle is attributable to the fact that there are practically no hills in Holland.

The importance of the bicycle is recognized by the authorities in that they provide separate "rijwiel pads" or bicycle roads running parallel to the automobile and horse-drawn vehicle roads.

The pedestrian in Holland must take far greater care not to be run over by a bicycle than by an automobile.

### Woman Scents Thieves by Scent They Stole

Berlin.—Three bold gentlemen burglars, their pockets bulging with booty, were leisurely descending the staircase of an apartment house in the Berlin suburb of Slegitz one night when a couple, occupants of the apartment just rifled, came walking up.

The thieves excited no suspicion until the wife sniffed the air. "Why that's my own scent," she exclaimed. Then the men started to run. On being caught they confessed having in the course of their operations liberally dosed themselves from the scent bottles in the woman's boudoir.

### Live Tortoises Worn by Paris Women

Paris.—Enameled and bejeweled tortoises are being sold at \$3 apiece in one of the big department stores of Paris. The little animals are alive and there is a large demand for them because the latest decree of the sorceresses is that the tortoise brings luck.

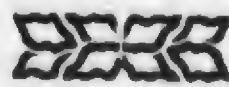

A painter goes over the back of the tortoise with a fine brush putting on highly colored tints. He is followed by another artist, who places multi-colored pieces of glass resembling precious stones all over the animal's armor. The tortoise is naturally lazy, and once he is fixed to milady's bag or attached to a fur neckpiece he stays there.

**Weeds One of Two Worst Foes of Vegetable Crops**

Urbana, Ill. July 24. Weeds, along with insects, probably cause most of the vegetable losses that are experienced annually, says L. H. Strubinger, of the department of horticulture, College of Agriculture, University of Illinois. When weeds are allowed to grow unmolested for a few days during the hot weather they either choke out the smaller growing vegetables or seriously impair their quality by retarding their progress, he added.

"If constant cultivation is practiced in the garden there should be little difficulty in controlling weeds that might otherwise occur. However, if for any reason the garden is not cared for and weeds are allowed to gain headway, it was take considerable time and patience to rid the premises of them.

"If the weeds are small they may be cut off just beneath the surface of the soil in cultivation and will probably die. If they are larger they may need to be pulled and carried away. This pulling can best be done when the soil is quite moist, and if it is too dry the roots may be cut just below the surface with a sharp knife. Afterwards it is always wise to cultivate the area to kill any weeds that are just starting to grow.

**Wash House Plant**

To guard house plants against insects, spray stems and leaves once a month or oftener, with a solution made by dissolving half a cake of soap shaved fine in a quart of boiling water, and adding four gallons of cold water. Apply with a whisk broom or spray, and rinse with clear water a half hour later.

**Old Monetary Term**

Merchandise money was silver money, said to have been first coined in China about 2853 B. C., and bearing the inscription "Merchandise money (Ho) of the second metal, circulating in the peaceful capital."

**Disease Misunderstood**

Influenza was first experienced in Europe in 1810. It was then believed to be an epidemic due to the plagues and influenced by volcanic action.

NEWS NOTES FROM NEIGHBORING TOWNS

**BURLINGTON**—A lighted cigar, left forgotten in the front seat of a Ford truck caused a damage of \$100 when it ignited and destroyed the cab of the truck. The driver had left the cigar in the seat, and when he returned an hour later the truck was in flames. With the help of pedestrians the flames were extinguished.

**ZION**—The Benton News has been sold to Mr. and Mrs. W. H. Hamlin of Chicago. Mr. Wilson will remain as editor for some time. Mr. Hamlin has also purchased the North Chicago Journal.

**WATERFORD**—A spectacular motorcycle 100 climbing contest will be staged at the new Hill next Sunday.

**BARRINGTON**—The people of Sutton near Barrington are becoming quite excited over the dumping of all dead animals from Chicago, on the Kober farm. This not only makes the vicinity uninhabitable due to foul odors, but pollutes a small stream from which several dairy herds drink. It is said that a rendering plant will be built on the property if action by the authorities is not taken soon.

Churches

**St. Ignace's Church Notes (Episcopal)**

Kalendar, 8th Sunday after Trinity. 7:30—Holy Communion. 10:00 a. m.—Church School. 10:30 a. m.—Holy Eucharist.

Next Sunday the pastor will preach on the theme "Our Father." The program of the Parish might be defined as every member a worshipper, every worshipper a giver, every giver a worker, every worker a spiritual force. Religion is the least understood and used force in our modern world.

**Methodist Church Notes**

The well filled auditorium on the Sabbath day is evidence that religion continues to hold a large place in the heart of man, whether he lives in the built-up city or the open places in the country. The church welcomes opportunity to serve and hopes that the summer visitor to the "Lake Region" will be our guest each Sunday.

The sermon theme for Sunday, July 29, will center on the 23rd Psalm. Rev. Krahl says, "There are more good thoughts in that Psalm than could be expressed in six months." Strange how little we think on these commonplace things until it is before hearing the next sermon.

The special program of music last Sunday was very helpful in the worship and Mrs. Ziegler has promised something equally as good each Sunday.

**Odors That Kill Germs**

The odor of clover kills microbes in 35 minutes, while typhoid fever bacteria are killed by essence of cinnamon in 12 minutes, according to a statement made by an English experimenter. For nearly two years upholstery to which quantities of these plants have been mixed has remained germproof.

**Dog Guards Crossing on Spanish Railroad**

Monserrat, Spain—A dog acts as guard of the grade crossing over the cogwheel railroad to the convent of Monserrat, to which thousands of pilgrims and tourists make excursions.

At ordinary times, when no trains are passing, the animal lies on a wooden bench at the side of the road, wearing a cap his owner made for him. When he hears a train approaching, he jumps up and stands on his hind legs, bearing between one of his paws and his breast a red flag which signals road travelers to a stop.

Oscar Olcott And Gladys Koehnke Are United in Marriage

A very pretty wedding took place in a beautiful setting of ferns at 2:30 o'clock at the farm home of Charles Harris in Randall Township, Wis., when Roy Jeddle of Wilmet, united in marriage Miss Gladys Elsie Koehnke youngest daughter of Mrs. Charles Harris of Wilmet, and Oscar Olcott, son of Othin Olcott of Waukegan formerly of Antioch.

The groom and bride were attended by Mr. and Mrs. Raymond Wildhagen of Antioch. The wedding march was played by Rhoda Jeddle.

The bride wore a gown of white silk tulle and carried a bouquet of sweet peas, roses and baby's breath.

For the past five months the bride has been employed in the Charles Harden home on Lake Street.

The groom is a former resident of Antioch having attended Antioch High School for two years before going to Waukegan. Mr. Olcott is a grand nephew of Mrs. Charles Harden and Mrs. Sol LaPlant of Antioch.

Mr. and Mrs. Olcott will make their home at 1722 Salem ave., in Waukegan, where the groom is employed by the Brummond's Dairy company of Waukegan.

# WILMOT TAKES ELEVENTH VICTORY OF THE SEASON

Former Prin. Minsart Visits Old Friends On Way To Chicago.

## WIN FROM UNION GROVE

By a brilliant ninth inning rally Wilmot won from Union Grove last Sunday 3-2. The game was a pitcher's battle between "Shubert" Frank and Letsch with the honors going to the Wilmot hurler. Frank allowed only three hits and struck out seven men, while Letsch pounded Letsch for ten hits. Letsch struck out six men.

Both pitchers were backed by hot bat support. Union Grove got one run in the first inning and one in the eighth. Wilmot pushed over one run in each of the second, eighth and ninth innings. H. Frank and Jennings proved themselves a hero by driving in the winning run with a Texas Leaguer over second base.

Gagan was the hitting star of Wilmot with a double and two singles in four times at bat. H. Frank and H. Jennings each got two hits in four times at bat.

Can Do Without Soil

If flowering plants are kept in water without soil, they ordinarily will die because the concentration of mineral foods is too weak. That they do not need soil for life was shown recently when such plants were raised in water.

Aluminum Plentiful

Aluminum, which is found more abundantly throughout the world than any other metal, forms approximately 8 per cent of the earth's crust.

Heat From the Sun

The Naval Observatory says that a theory recently suggested to account for the sun's heat is that it is due to some subatomic process, such as the mutual destruction of electrons by collision, resulting in the transformation of their mass into energy and thence into heat.

Few Collegiate Criminals

Out of a survey of 1908 convicted criminals only 610 were reported to have had any college education.

## The Extra Quality, Long Distance Gasoline that Sells at the Regular Price!

Shell 400 "Extra Dry" is in every sense an extra quality gasoline—refined by a revolutionary process that takes only the most volatile elements from the crude. Every drop vaporizes—every particle is converted into power—there are no impurities or sluggish, greasy elements to slip past the pistons unburned and dilute the oil in the crankcase. Costs more to produce—but costs YOU no more than the ordinary kind.

Just for your own satisfaction, fill up the tank with this superior gasoline and watch the results. Speed when the opportunity presents—swift get-away when the signals change—acceleration that thrills and exhilarates—full mileage from every gallon—less carbon and repairs—these are everyday experiences of the motorist who uses Shell 400 "Extra Dry."

Any Shell yellow-red service station or Shell Dealer will supply you with Shell 400 "Extra Dry" Gasoline at the regular price—not one cent added for its extra quality or the improved performance it delivers.

## MILLBURN CHURCH PEOPLE ORGANIZE FOR HARD WORK

### Mr. Denman is Recovering From Second Serious Operation.

The church of Millburn under the leadership of the Rev. MacNair, has been taken on new life. Instead of being a church down a large part of the people are optimistic of victory and have organized themselves to work for the extension of the influence of the church in the community to meet the needs of the people for miles around. D. H. Denman is chairman, and Miss Vivian Denman is clerk of the organization.

A visiting campaign is now in full progress and we expect to cover the whole territory on Sunday, July 29, at the afternoon. The morning service at 11 a. m. will be especially appropriate and we are expecting every seat in the church full.

J. S. Denman, who had his second serious operation at Victory Memorial Hospital last Tuesday, is doing as well as can be expected.

Mrs. George Steckert and daughter of Chicago enjoyed a week's visit with her aunt, Mrs. Oscar Neahous. Mrs. Schenitz and daughter, Doris, of Rogers Park visited the former's mother, Mrs. Nelson, the past week. Mr. Schenitz spent the week end with her and accompanied them home on Sunday evening.

Mr. and Mrs. Lewis Bauman and Miss Vivian Bonner motored to De Kalb Thursday. Miss Alice Bauman returned with them for her summer vacation.

George, Robert and Norman Achen of Kenosha spent the past week with their aunt, Mrs. E. A. Martin.

Mrs. Mina Gilbert of Waukegan visited Friday and Saturday at the Leslie Bonner home.

Miss Marion Nenhaus of Chicago, who spent ten days of her vacation in Detroit, Mich., spent the last of the week with her parents, Mr. and Mrs. O. P. Neahous.

Mr. and Mrs. R. L. Wheaton and sons, Mrs. Safford and Miss Helen Safford of Wheaton were Millburn callers Sunday. Miss Foote, who has spent three weeks with Mrs. C. E. Deuman, returned home with them.

Miss Helen Bauman, who has been spending two weeks with her grandmother, Mrs. Bauman, Sr., in Waukegan, had the misfortune to run a threaded needle eye in her knee, knocking it off in there. An anesthetic was necessary to have it removed.

Mrs. E. W. MacNair left Saturday for Kalamazoo, Mich., where she will teach at a Young People's conference.

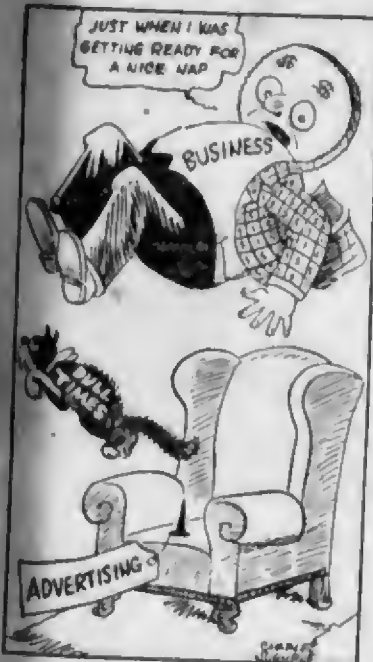

The young people will have a beach party at Gage's Lake Wednesday evening.

The first open air meeting of the C. E. society was held Sunday evening at Eric Anderson's.

The Ladies Aid society have set August 10th, as the date for the summer bazaar. Further details will be given next week.

Miss Margaret Pierstorff is spending the week with the Chas. Nelson family near Brass Ball Corners.

### TOWN PROGRESS TALKS

Our town's prosperity is gauged by that of our business men. They have what they call dull times, when trade is sluggish. Instead of doubling their advertising to combat this condition, some quit entirely, thus making matters worse. This has a bad effect on the town, hence as a matter of town bettering, their attention is called to the advisability of giving business a swift jolt when it shows signs of lapsing into a coma. This dull season is the time to trot out bargains and novelties, and to rearrange the store, making it more attractive. Just as it is necessary to tempt the invalid's appetite with toothsome dainties not on the daily menu, so is it good business to tempt the shopper's dollar with something special during dull seasons.

### Costly Neck Ornaments

Greeks and Romans of both sexes wore necklaces of gold thickly set with gems. Homer mentions a necklace curiously wrought of gold intertwined with amber. It is recorded that a necklace in the possession of a Hindu monarch about the year 100 A. D., was composed of large pearls and rubies and was valued at 200,000 dollars, or about \$500,000 in our money.

### Puppet Shows Old

The origin of puppet shows is lost in antiquity. They were known to both the Greeks and Romans. It is significant that the Sanskrit word for stage manager means literally "thread holder." The characters Punch and Judy were well known in England in the Seventeenth century, and Punch can be traced to Italy of the late Sixteenth century.

### Geologic Formations

Drumlins are elongate or oval hills of glacial drift. Normally they are compact and unstratified, with the longer axis parallel to the direction of the movement of the transporting ice. These geologic formations abound in Wayne, Cayuga and Onondaga counties, New York; in Dodge and Jefferson counties, Wisconsin, and in Massachusetts.

### California Has Monopoly

### Cars Should Be Locked to Prevent Children Causing Accidents

The danger of theft when parking an unlocked car in a residential district, is not so great as the danger to life and property, says a bulletin issued by the accident prevention department of the Chicago Motor club. Children play in the streets in these residential districts, and most children have seen their elders start automobiles and manipulate the levers. Children are imitators, and it is not at all unusual for them to climb into parked cars and try to imitate the movements of the adult drivers. An unlocked car is an invitation to them. All that is necessary is to turn the switch, fumble around with the clutch pedal and gear lever, and somehow or other the car will start. It has been done, at the cost of

the children's lives, and it should be prevented by keeping the car locked. If the car is a closed one, the body top should be locked, points out the bulletin, for if the car is on an incline, all the child need do to cause trouble is to release the emergency brake. It takes but little extra effort to lock the car, and it always should be done.

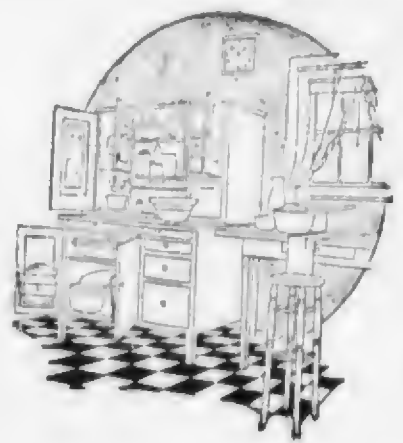

### Appropriate Nickname

Ground squirrels have received the nickname "lickerills" because of their habit of flicking their short tails up and down when uttering their call notes.

### Virginia's Northern Neck

# What Are You Worth By the Hour?

*This Valuable Service Saves You Time When It Means  
Money to You. Tho It Need Cost You Nothing*

**E**VERY time you pay by check you save valuable time—sometimes only a few minutes, often more. Take a month's cancelled vouchers and estimate the value of the time it would have taken to make the same payments in cash. Then multiply by 12 to set the yearly saving. The amount will startle you.

Checking service has other values to you, too. It gives you a legal receipt. It makes efficient, easily-kept records of financial transactions, visualizing expenses for easy control. It keeps your money in a safe place, yet the purchasing power is always at your pen's point.

Probably over 90% of all business transactions today, involve the use of checks, but with increased banking costs, many accounts, profitable ten to fifteen years ago, actually represent a loss to the bank today.

The surplus left on deposit is the bank's only source of revenue from checking accounts. If funds are checked out as soon as deposits are made, naturally there is no surplus, no revenue and no compensation to the bank for the service. Yet it costs the bank just as much to handle 32 checks for the man who keeps no surplus on deposit as it does to handle 32 checks for you with a reasonable reserve always in the bank.

A checking account, properly used, is an important source of profit to you. Talk it over with your banker and arrange to put it at work immediately.

## Eight Great Amateur Bouts Will Be Seen at Palace Friday Eve.

(Continued from page 1)

The popular "Jabber" Young was the third man in the ring and Lont Henry Wallenwein of the Waukegan police department acted as announcer. Hermin Schuffer of Waukegan was the timekeeper and Dr. Beebe of Antioch the attending physician.

## Great Card for Friday Night

What is expected to be the greatest amateur boxing card in the history of northern Illinois will be staged by Promoter Macek and Matchmaker Wallenwein at the Palace tomorrow night when sixteen top-notchers, the very cream of the amateurs, will engage in eight all-star bouts. Three return matches and two challenge matches are on the card.

In the semi-windup event tomorrow night, Ernie Jokinen, Waukegan's popular favorite, will meet Billy Bennett, Tribune Golden Gloves Champ, in a return match. Jimmy Chase, another Golden Gloves Champ, will mix with Ray Slekter, Duerrfield mauler, in the windup, at 116 lbs.

Phil Taylor and Jack Harris, of Jack Johnson's gym, will offer the colored event of the show. This will be a challenge match.

Jimmy Hull meets Hagney Ross, of Dundee's training camp, in a return match. Ross got the verdict over Jimmy last Friday night.

Another return match is that between Walter Kandu and Charles Robles.

Mac McMullen and Jimmy Murphy will mix in the third bout at 145 lbs. Paul Harris and Joe Wolkin, two popular boxers, will appear in the opener. The heaviest battlers of the show, Felix Druba and Harry Minkel, 165 lbs have fourth place on the program.

Bill Donnelly and his gang will entertain at what promises to be northern Illinois' greatest boxing show.

## Co-Operative Effort a Way To Community Betterment

THIS community represents much to all of us. It is home, it is where our families are reared, it is the center of our joys and sorrows. It is where our property interests lie. The better the community the better it is for each individual member of the community. A greater degree of prosperity for the community as a whole means a greater degree of prosperity for each individual.

Making a better community, a more prosperous community, is the work of individuals, but of individuals working together along comprehensive and progressive lines. As a community we get nowhere when each one travels his own path, each heading in a different direction, and each striving for a different goal. We have collective interests and to accomplish anything must work collectively—each for all.

When we think of ourselves as a community, in which each member of the community has a place, we can visualize the benefits of cooperative action passing from one to another around this circle. When by such cooperative action we increase the prosperity the wealth of the community, we have increased the prosperity, the wealth of each member of the circle.

A better town means a better market place for the farmers who are a part of the community, and a better market place means better farm values. A better town means better property values, and this, without increasing, but in reality decreasing, the burden of local taxation, means better schools for our children better streets, more attractive living conditions for all of us.

Communities, in which the individual members are not working together are dying because of a lack of co-operative effort. With each backward step there comes a decrease in property values, a decrease in the number of opportunities for the individual in the home town. This community cannot afford to be

## Fire Insurance Rates Decrease In An Unparalleled Record

In recording the achievements of American fire insurance companies, George W. Buckler, president of the National Board of Fire Underwriters, brings to light some interesting facts.

According to authentic statistics, the average rate of premium charged for fire insurance in 1905 was \$1.60 per \$100 of insurance. From 1905 to 1927 this rate decreased steadily to \$1.00. This represented an actual decline in insurance rates of 37.5 per cent during a period which included the World War with its tremendous enhancement of prices in general.

Such a record seems to be without parallel. It demonstrates that American fire insurance has been not only generous, but perhaps overzealous in giving to the insuring public the fullest possible measure of benefit accruing from improved methods of building construction, from more efficient public fire protection and from the progress of invention in connection with fire protection and fire prevention methods and devices.

What makes the achievement even more remarkable is that it was accomplished in the face of large increases in insurance company expenses due to higher price levels.

Sometimes we miss the expense of the automobile, but even at that, they are pretty nice to cool off in these hot evenings.

This town of Antioch is fortunate in having such strong banks. We know of some not so sure of themselves.

A pedestrian looks like a suicide to a motorist and a motorist looks like a murderer to the pedestrian.

Boss: "Before you can be engaged here you must pass an intelligent test." Applicant: "Intel-

ligence test? Why I thought you said you wanted a stenographer."

A sweet little miss had a heavy date. The fellows name was Hector.

She gave him a portion of love to drink. And then, he gosh, he nectar.

Nothing is easier than fault finding. No talent, no self denial, no brains, no character are required to set up in the grumbling business.

Barnum used to say that the public liked to be humbugged. After attending the circus here last Saturday night, we have reached the conclusion that Mr. Barnum was right.
